

# TERMS and CONDITIONS for DEALERS

## of Golden Mask Deep Hunter series metal detectors

### I. Pricing Conditions for Golden Mask Dealers

1. All prices are without VAT included. If you are a member of the European Union, you have to add VAT, according to the rates and tax regulations in your country.
2. Dealer prices are valid for **4 (four) or more** Deep Hunter sets within a single order.
3. Dealer prices are calculated based on the Minimum Sale Price (see page 3) of the units in the order, minus a discount. The discount rate depends on the total value of the order a dealer makes, calculated with the Minimum Sale Price of the items ordered. The maximum discount equals 20%. A greater discount rate is possible under special conditions.

Total order value EUR without VAT	3 000	4 000	5 000	6 000	7 000 +
discount %	8	10	12	15	20

4. The dealer is free to set-up the sale price within these limitations:
  - 3.1. The customer sale price (without VAT, if applicable), should not be lower than the Minimum Sale Price.
  - 3.2. The maximum customer sale price should not be greater than the Minimum Sale Price plus 60%, based on price without VAT.
5. Stems and electronic blocks are not to be sold separately, only within a set.

## II. Payment and Delivery

1. Payment of all orders should be made by direct bank transfer, after we issue a proforma invoice. Payment by PayPal is possible, but adds 2.7% PayPal tax to your order total.
2. If the dealer's company is registered within the EU and have a valid VAT number, we issue an invoice with 0% VAT. VAT is added by the dealer on the product sale.
2. All orders should be pre-paid. No exceptions!
3. Dealers pay ALL delivery and insurance charges for an order.
4. We ship with TNT or DPD. If you prefer another carrier, you should arrange all the details about the pick-up and the delivery of your order.
5. The shipping charge is calculated on order basis, the rates of both TNT and DPD are calculated based on the package volume. We try to reduce the volume to save you money, so we could send you two or more machines in a single box, if this is acceptable for you and your clients.

## III. Other Terms

1. We do not have bulk stock. The detectors are assembled on request. Please allow from 3 to 20 working days for your items to be assembled, tested and packaged.
2. Dealers are responsible for the import procedures and the payment of the customs duties (if any) in their country.
3. Dealers have to provide support for their customers, including after sale support, warranty complaints handling and service repairs (in cooperation with the producer).
4. Dealers should provide along with the products all the documentation required by the national and/or EU regulations - invoice, user guide, warranty card etc.

## IV. Privacy Policy

1. This document is strictly confidential! Please do not share it!
2. If you received this document by mistake and you are not a Golden mask dealer, please destroy/erase the document immediately!
