
PDC 210

In spite of all their success after more than 50 years in metal detection, our world class Research Lab continues to analyze electrostatic-ionic phenomena. Recently there has been considerable progress in lab and field tests. The **Super PDC-210 FG** is the crown jewel of that ceaseless labor.

SPECIFICATIONS

Model	Directional Detector SuperPDC210 - Fully electronic and Hand Held
Accessóry	Center & Deep - Device to determine Center and depth with accuracy - Case
Detection System	Biotronic Classifier System - BCS
Range	0 up to 10900 yards or more
Depth	656 feet or more
Power Source	12 x 1.5V AA alkaline battery - 02 x 9 V alkaline battery
Size	Length 7" / Width 9" / Height 10"
Substances to be detected	Gold, silver, brass and copper
Weight	3.31 lb
Warranty	02 years

System: a guideline
Depth: 30 meters
Range: 900 meters
Price: 6.500 \$
